Berklee is offering free music lessons online designed to expand educational opportunities for musicians around the globe. The music lessons are available for free download from the Berkleeshares.com Web site and via a growing network of partner Web sites. These free music lessons are also available on digital file sharing networks. We encourage people to share our lessons with other musicians. While Berklee strongly disapproves of stealing copyrighted music online, we believe that file sharing offers new opportunities for musicians to learn, and to promote and distribute their work.

Slap Technique

This book will help you develop your slap technique. These suggestions will help you maintain an even overall sound:

1. Be precise with thumb attacks.
2. Only hit the string you want to sound.
3. Muting strings is critical.
4. Muted thumb attacks should be struck with the same intensity as sounded notes.
5. Pull attacks should not be louder or more intense than thumb attacks.

In this book, slap techniques are labeled as follows:

- T Thumb attack
- X Dead note (String attacked as indicated, but not allowed to ring. These are notated using the open string on which they are attacked.)
- U Thumb-up stroke (thumb pulls up from under the string)
- S Slide
- H Hammer on (no attack with slapping hand)
- P Pull string with first or second finger
- L Lift finger from previous note to the note with the L above it

Slurs \frown show when notes are sounded without a right-hand attack, as in hammers, slides, and lifts. Only the first note of a slurred group is articulated with the right hand.

LESSON 1: ONE-CHORD SLAP GROOVES

These examples are basic slap grooves. Listen closely to your attacks and your overall sound. One of the most challenging aspects of playing slap bass is maintaining an even, full, clear sound. Of course, you can do some experimenting with the sound by adjusting the control knobs on your bass and your amp, but a good sound always starts with your hands.

This lesson will use eighth-note grooves, focusing on the root and octave of the given chord. To hear more of this type of bass playing, listen to artists such as Sly & the Family Stone and Larry Graham.

THUMB, PULL, AND MUTED NOTES

- T Thumb slap. Use a down-stroke attack with your thumb. These are generally the lower notes of a slap-bass line.
- P Pull. Use your index finger to pull up on the string and sound the note. Pulled notes are generally the higher notes of the slap line.
- X Muted. Use your left hand to mute or “choke” the note. These are notated on any of the open strings. You can play a muted note with regular fingering, or with a thumb slap, pull, or hammer.

1 Example 1

Tuning Notes: E, A, D, and G strings, each played twice.

Musical notation for Example 1. The top staff is a bass clef with a treble clef below it. The bottom staff is a bass clef with a treble clef below it. The notation shows a sequence of notes on the top staff and open strings (0) on the bottom staff, corresponding to the tuning notes E, A, D, and G.

2 Example 2

E-7

Musical notation for Example 2. The top staff is a bass clef with a treble clef below it. The bottom staff is a bass clef with a treble clef below it. The notation shows a sequence of notes on the top staff and open strings (0) and fretted notes (2) on the bottom staff, corresponding to the E-7 chord. Above the top staff, the notes are labeled with T (Thumb slap) and P (Pull).

WRITE YOUR OWN

In the following blank measures, write your own bass grooves for the chord indicated. Remember, the goal is to outline the chord; start with the root, fifth, and octave. Model your own rhythms after those used in the examples.

1.

E-7

Exercise 1: E-7 chord in 4/4 time. The notation consists of two staves. The top staff is a bass clef with a key signature of two sharps (F# and C#) and a 4/4 time signature. The bottom staff is a guitar tablature staff with a 'T' above the first line and a 'B' below the first line, indicating the first fret on the bass string.

2.

D-7

Exercise 2: D-7 chord in 4/4 time. The notation consists of two staves. The top staff is a bass clef with a 4/4 time signature. The bottom staff is a guitar tablature staff with a 'T' above the first line and a 'B' below the first line, indicating the first fret on the bass string.

3.

G7

Exercise 3: G7 chord in 4/4 time. The notation consists of two staves. The top staff is a bass clef with a 4/4 time signature. The bottom staff is a guitar tablature staff with a 'T' above the first line and a 'B' below the first line, indicating the first fret on the bass string.

4.

A-7

Exercise 4: A-7 chord in 4/4 time. The notation consists of two staves. The top staff is a bass clef with a 4/4 time signature. The bottom staff is a guitar tablature staff with a 'T' above the first line and a 'B' below the first line, indicating the first fret on the bass string.

Study with the world-renowned professors of Berklee College of Music, on your own time, from anywhere in the world.

Online Courses from Berkleemusic

Berklee Keyboard Method

Master the basics of technique and chord voicings, and gain an understanding of more advanced concepts including interpretation of lead sheets and improvisation.

Basic Improvisation

Develop your solos by studying the riffs and licks of legendary players, and learn to incorporate the inflexions, feel, and nuances of the masters into your own playing, no matter what instrument you play!

Blues Guitar Workshop 1

Bring a blues sound to your playing by learning the techniques and licks of classic blues stylists. Gain a foundation in form, control, feel, and harmony, and learn to add more depth to any style of music.

Guitar Scales 101

Organize the guitar fretboard, develop your technique, and learn to confidently navigate the instrument by gaining a firm understanding of the major, minor, Pentatonic, Dorian, Mixolydian and blues scales.
